

MINNESOTA DRAGON BOAT CLUB

ANNUAL REPORT 2020

CHAIR'S REPORT

If 2019 was the year of delighted success, 2020 was the year of regrouping, adjusting, and adapting.

As we moved into 2020, we were anticipating a great fundraiser in March, and we stood poised for a follow-up year of open paddles, club member growth, and outreach to the cancer survivor and supporter community. We were looking forward to a summer of expanded festival participation and racing, and continuing our plans for supporting organizations in the communities in which we paddled.

COVID-19 changed many but not all of those plans.

We focused club activities on paddling individual watercraft and workouts we could do together, but apart. Our fundraising volunteers shifted our event to an online raffle and silent auction. Our members made a difference, donating to organizations in need.

While it wasn't the year we anticipated, it was still a year of living our guiding principles: supporting our community, having compassion for one another, challenging ourselves to focus on the future, and consider what competition means in an environment of uncertainty.
